

Bangalore, November 30, 2006

To whomsoever it may concern,

Regina C George has worked with us since May 2006 till above-mentioned date, a small very construction oriented practice with focus on industrial projects aiming at high structural efficiency, good construction technology and climatic appropriate design for natural ventilation.

She was first assigned to an industrial restructuring project involving shop floor extension, complete restructuring of shop floor and offices, shifting of utilities, new social spaces, etc to prepare complete working drawings and details along with site visits. Parallel to this she worked on smaller extension projects requiring a lot of detailing. Besides she has gained experience on a mid size industrial project, preparing all the drawings from presentation to all working drawings and necessary details directly under the project architect. She has been doing well and gradually taking on more responsibility.

Regina is a very hard working with strong work ethics. We wish her all the best in her future career.

Sincerely,

Saveri Rajai

Certificate

This is to certify that Miss Regina C George, Chathurakkalam House, Maharajas Lane, Anayara P.O, Thiruvananthapuram 695029 has been working in this establishment as Architect from 1st May 2005 to 6th May 2006. During her association with us I have found her original in her work and hard working and sincere in her outlook. Her commitment to the job is commendable. She has been working out plans and interiors of residences, Shopping Complexes and apartments and have been doing views manually as well as in AutoCAD. She has an experience of 12 months in AutoCAD in our firm.

I can vouch for her exemplary character and conduct. I recommend her, without any reservations to any prospective employer who is in need of a focused, dedicated, talented and conscientious employee.
