### INTRODUCTION

Womb is a hollow muscular organ in the pelvic cavity of females, which contains the developing foetus and uterus. Since the population has had started in the world of woman teased by her outer parts even her interior parts of womb gives more respect to this society when it starts to work. But the society of culture neglect about its priceless work as it is called woman. Traditionally womb only reject all the most powerful things of Education, job opportunity, cultural participation and parental discrimination etc. woman are weak and soft when they are pregnant and mother only knew the strength of woman at that stage. The secret of strength, man can learn from his mother and his wife of woman. But unfortunately she has no time to share her feelings at her husband and her son as she is in responsible to serve the man. This is only way to know about womb and woman, otherwise he can understand the important part of life at her tomb.

### Judith Wright

One of the Australian woman poet is **Judith wright** whose poem is Woman To Man. This poem reveals a wife's intense and feelings to share with her husband when she is pregnant. **“the eyeless labourer in the night, the selfless, shapeless seed I hold”** By this poem woman can teach her husband of man about her intense and wishes. The man of husband is responsible to head his wife of woman and this stage is considered climax of life for all human being. So

Judith informed to man that keep heart at his wife and share everything and open the secrets of treasure between them.

### **Man's Participation for Woman**

Woman wants to share her feelings to another woman when a man goes out to work ,he ignored her intense by his importance of earning. Man would earn money for woman, catch the kingdom for woman, hide the treasure for woman as these things for man wishes, he put wrong way of interpretations at her, control her and punish her for his protection and wishes. A man earn many things by woman, even this sound is good nobody feels comfortable, making inconvenient to woman that is good for man convenient habits. This kind of attitude is not by birth, which is practiced by ancient. The history says men and women were lived equal status at far long years ago. They worked and shared equally but where is the mistake of man's advantages of domination interlude at woman that is womb of pregnancy stage. She gives respect for womb and tried to protect it and fear about death of children. Here demand has started till now for Woman and their children, she agreed her all difficulty in life of world. So man doing all work except conceive and delivery the children.

### **Gossip as a way of Learning to Woman**

Woman are allowed to learn about her body from ancient period. Perhaps they need any information from society they had bed with man to study about something. The woman need to spent with director and producer to be a heroine, after that she will famous by this difficult study, survive her own wishes. The word gossip is very famous in the world. It is mostly practiced by woman as it has the only way to learn about world by woman. Some difficult situation woman has cheated by this gossip as they were not educated in the society to analyze every mater. So education only can cultivate human being, **Jean Sasson's** one of the work is "**Princess**" Sultana Al-Saudi the princess of Saudi Arabia says "**our first step is to educate all females, so that they might take of their economic life. Our second step is help man to understand that without strong and independent woman**", **Virginia Woolf** says for economic a woman must have money and room of her own if she is to write fiction. Here lack of awareness to man about woman when she tries to talk with him the man of husband who approaches her and trap her by his strength of lust and leave her. This is our culture followed by family of society.

### **Parental Discrimination**

When the nation civilized by people they are following some cultural activities. By this culture only woman cannot get equal status in the society. The culture has been followed every family members. In the family mother should speak low voice and father can raise his hard voice. Is there any chance to show woman wishes? yes, on condition that woman can like

anything if the man allowed that things. For marriage pride are asked to say her wishes about groom that time only her freedom time but her words ,which should be followed by family responsible of man. Family members including woman would spend the money to male children's future protection of education. Daughter guides by her mother and mocked by her brother to practice how to cook, how to obey, how to decorate, how to do and don't for man. "the worth of child born in the kingdom of Saudi Arabia is still measured by the absence or presence of a male organ, the male child to taught that women are of little value" JS p6. In Indian culture wife have to go her husband's house it shows woman don't belong anything. Perhaps Any festival time female children are allowed to buy ornaments and decorate things like bangles, stud, ring, male children don't allowed to buy those things rather they make interest to buy some toys of hard and playful machines, toys of vehicles etc,. Here, mother also victim of a woman children's life that mother teach her daughter what she has following by her mother and ignoring their future . Equality in childhood will develop equality in society it's only possible by parents especially mother.

### **Cultural Discrimination**

Woman bears her baby in her womb, perhaps she would delivered a baby without womb is called male of man and delivered with womb is called female of woman. Man can see the pregnant lady to take care by his sympathy but woman of mother only can understand by empathy of forceful rebirth and resurrection. when a man and woman understanding each other that relationship is called human. Man doesn't opponent to woman, he wrongly taught by cultural activities in society. Culture is most important part in woman's life to protect her but which failed to teach her how to protect herself. When she tries to go out man bans her and complaining the society, which is bad and practiced by culture. Every religious culture is giving more important to women to tie her leg by anklet. Though many countries are celebrating different kind of culture ,they are equal in practicing to control the woman by its ceremony activity. The lopsided culture ,we are following since the world spread by woman. "Man has created a society in which friendship between Man and Woman is impossible", (Osho,A Book O woman,mother,page 57)

### **Job Opportunity**

Technology has been developing day to day with practicing old culture, which ignores awareness that an importance of woman in human life with freely. Presently the holy grail of gender balance the production floor at Syrma Technology in Chennai at Tamilnadu, India , appears to be the preserve of women in job opportunity for men and women. In the company the total labourer are 1780 ,the women labourer are 1403 remaining 377 men labourer want to dominate the majority of women labour (p-2,The Hindu news paper on 01-08-18,opportunities). The kings learning at Bengaluru, Karnataka, based educational start up has ensured in the

representation of men and women its workforce(p-18). The Economic Forum's Global Gender Gap Index 2017, has given **108<sup>th</sup>** place on India for equal representation of men and women at workforce. The top ten countries of equal opportunity for men and women in the world, 1.Iceland, 2.Norway, 3.Iseland, 4.Ruanda, 5.Sweeden, 6.Nicaragua,7.Slovinia,8.Ireland,9.Newzealand and 10.Philippine.This is not degrading thought our country but what kind of culture are we following to get equal opportunity.

### **Kindling the Role Model to Female Children**

When woman starts to study about the life story of many woman adventures in their life the children would be proud and make them role model to their life style .some of the women are Sarojini Naidu the Nightingale of India,who was the first Governer of India at 1925,she participated social activities especially Hindu Muslim unity and joined with Mahathma Gandhi for India freedom. She had married inert caste and were denied at the time.Indra Gandhi our former Indian Prime Minister,the iron lady of India in politics. Kiren Pedi the first Indian woman IPS officer. Kiren Pedi even though she has worked as an IPS officer she showed her kindness towards criminal and taught them to be good which was turned their horror life into happy life. Presently many women police are working influenced by the farmer IPS. Now she works as state governor of Pondichery ,suppose she thought about womb as a barrier of woman life, she cannot delivered women police by her adventures. She was supported by her family member and parents. DR.Muthulaksmi the first Indian doctor,etc,. In Saudi Arabia woman are allowed to drive a car even the country has monarchy ruling, this is not easy but it has happened by the kindling flame of woman Iffat Al Thunayan. This kind of woman adventures should be preach for girl children and make boy children to understand by mother.

### **Summing up**

Hence ,we learn from our mother tongue ,live in our mother nation, raised up by mother but we ignoring her as womb of woman that preached by foolish forerunner. Womb of woman is not a part of body which is the whole of life that man just listen and feel at her as we are live in the world by her, she also has responsible to sit near man with equal status. Equal opportunity is not considered to snatch something from ,which means that give a way to her eye, to walk by her foot without social, cultural and man's love of domination, otherwise we will be head in the life of tomb. "Love is not slavery it is freedom"(Osho,A book of woman,page 60)
