

RESEARCH PROPOSAL

The aim of my research is to focus on the key issues in cultural studies. Cultural Studies is an interdisciplinary approach to the study of culture and society which responds to and builds upon critical analyses of traditional disciplines and epistemologies. The main key approach is the perception of language, gender, race, sexuality, nationality class identities and cultural objects. Cultural Studies always requires cross-disciplinary work. Cultural Studies born out of complexity of contemporary life, the necessity of analysing operations and the critical perspectives to produce interdisciplinary research and teaching under the banner of cultural studies across the world.
