

STATEMENT OF PURPOSE OF PhD

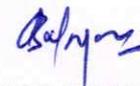

Respected Sir,

I have passion for research in civil engineering in the specialization of construction engineering and management for the following purposes:

1. To Invention and find an advance construction methodology and technology by research.
2. Invention the new methodology to make a low cost building with best quality of materials, workmanship by availability material sources at site.
(Mainly for, My research will use to construct a house to Poor and Middle class families)
3. To improve my career and knowledge in my filed by my research.
4. To serve to society through my research invention.
5. To ensuring the any that project successfully completed with in cost,time and especially zero accident/freedom from at construction site.

Thanking You,

Yours sincerely,

BALAMURUGAN O
