Marginalization of Queer in the Society

The serious point of the research is about the *discrimination happens to the queer people. The world is divided into pieces already by race, gender, age, religion, castes.* It restricts members of one group from others from the opportunities or *privileges to the sexually minored people and forces them to take risks to live.* In R. Raj Rao's *The Boy Friend* gives the example of caste and sexual orientation discriminations which occur in the society. It gives how the sexually minored people were being harassed and lose their identity in the present world.

This research work focuses that discrimination of one in any way is a sin and punishable. It also says that everyone is equal.
