Research Proposal

Blockchain is one of the emerging technologies in today's world and our Data scientists have long struggled to maintain the quality of a dataset for machine learning by an AI entity. Datasets are expensive to purchase and also maintaining the integrity of a dataset is difficult.

Blockchain as a highly secure storage medium presents a solution in maintaining the data integrity. And by using the Blockchain's immutability constructs we can create a high quality, permanent and growing datasets for deep learning. So I propose a better mechanism in providing dataset with the blockchain technology.

ANNEXURE-I

CERTIFICATE FROM THE ORGANISATION WHERE THE CANDIDATE IS EMPLOYED

Certified that Mr./Ms./Mrs. Nineesha P is employed as assistant professor (Designation) in the computer science & engineering (Department/Division Name) of Sree Buddha College of Engineering, Pathanamthitta, Kerala (Institution/Industry Name).

We have no objection in forwarding his/her application for the Ph.D. Research Programme.

FOR FULL TIME:

The candidate will be sanctioned leave for the duration of the research programme and will be relieved from duty from _____ to _____ to undertake the full time research work in the University.

FOR PART TIME:

The candidate will be permitted to undertake part time study in the University/College and will be allowed to be present for discussions with the supervisor, attending course works, conduct of experiments and participations in seminars and related presentations. Further the required facilities at our organization will also be provided to the candidate for doing research.
