## Ph.D. Research Proposal

### Submitted to:

Department of Food Science and Nutrition  
Kalasalingam Academy of Research and Education (KARE)  
Krishnankoil, Tamil Nadu – 626126

---

### Title of the Research Proposal

**“A Novel Methods for Preparation, Preservation, Formulation and Delivery of Neutral Plant and Flower Based Essences and Herbal Supplements”**

---

#### 1. Introduction

Nutraceuticals have become an integral part of modern nutrition, addressing health, immunity, and preventive wellness. Among them, **plant- and flower-based supplements** offer an unexplored niche of natural therapeutic solutions. Traditional systems like **Bach Flower Remedies and Indian flower healing systems** have used flower extracts for emotional and physiological wellness. However, standardization, safety, and consumer-friendly formats remain key gaps in scientific acceptance.

This research aims to integrate **traditional flower remedies** into **modern nutraceutical forms** (globules, pills, and tinctures), focusing on **shelf life, microbiological safety, stability, and nutrient delivery efficiency**.

---

#### 2. Objectives of the Study

- To develop a **standardized manufacturing protocol** for plant and flower-based nutraceuticals and health supplements.
  - To establish methods for **preservation, ppm standardization, and formulation into solid and liquid dosage forms** with no potency involved.
  - To evaluate **shelf life, microbiological quality, and pH stability** under various storage conditions.
  - To assess **functional and emotional wellness benefits** through controlled consumer trials.
-

### 3. Research Questions

- Can flower essences be preserved and delivered effectively in nutraceutical formats without compromising bioactivity?
  - How does **delivery form (liquid vs. solid)** affect absorption and shelf-life stability?
  - Can **ppm standardization and pH buffering** ensure consistency and safety in food-grade flower remedies?
  - Do **plant and flower-based nutraceuticals** offer measurable emotional and cognitive benefits?
- 

### 4. Review of Literature

- Overview of Bach Flower Remedies and Indian traditional flower systems
  - Previous research on edible flowers and their nutritional/medicinal value.
  - Nutraceutical delivery innovations: globules, encapsulation, functional foods.
  - Standardization techniques using **ppm meters, membrane filtration, and natural preservatives.**
  - Challenges in integrating plant-based remedies into food-safe, regulatory-approved formats.
- 

### 5. Methodology

#### 5.1 Raw Material and Formulation

- Selection of flowers: Safe, edible varieties with proven therapeutic value.
- Extraction methods:
  - **Sun Method** for flowering parts.
  - **Boiling Method** for herbs and non-flowering plants.
  - **Dissolving Method** for herbal powders.
- Preservation with glycerine, vinegar, or food-grade alcohol.

#### 5.2 Quality Control and Testing

- **PPM standardization** (target: 60–70 ppm) for consistency.
- **Microbial testing:** Aerobic plate count, yeast & mould, coliforms.

- **pH and temperature stability** tests over 3, 6, and 12 months.
- **Shelf-life simulation** under accelerated and ambient storage.

### 5.3 Nutritional and Functional Analysis

- Small-scale **human volunteer trials** to assess mood, sleep, and cognition.
- 

## 6. Expected Outcomes

- Validated, scalable flower remedy manufacturing process suitable for the food supplement industry.
  - Data-backed proof of **superior bioactivity** and shelf life in standardized formulations.
  - Novel delivery formats (e.g., pills, globules) with documented consumer safety and usability.
  - Contribution to **scientific literature and product innovation** in food-based wellness.
- 

## 7. Significance of the Study

This research supports India's emerging nutraceutical market with **evidence-based alternatives to synthetic supplements**, focusing on **natural, safe, and effective plant-based solutions**. The preparation framework will ease the raw materials inventory management and it will empower the food science industry to **commercialize traditional wisdom** while maintaining modern quality standards.

---
